His Eminence called on to think about post-ISIS phase and present the comprehensive political project, after everyone had returned to the inseparable Iraqi nation and terrorism had become obvious to all, affirming that Mosul is our next victory, and terrorism had been defeated when it had lost its supporters, indicating that the cohesion of the Iraqi people had failed the sectarian plans, describing ISIS as a bubble that had lost its supporters and its political covers.

His eminence reiterated his belief in the imminent demise and defeat of ISIS in Iraq, anticipating that the countries that have supported and paved the way for terrorism will suffer from the crimes of ISIS, explaining that there are those who support, covered for and funded ISIS, that will return back to them, because God's laws states that bad deeds will return back to its originators, considering what has been achieved in Fallujah, an accomplishment that was achieved by sacrifices and pure blood, but otherwise Fallujah would have remained captive by ISIS for many years to come, calling on the faithful to invest in Laylat al-Qadr (the night when the first verses of the Quran were revealed to the Islamic prophet Muhammad (peace be upon him)) by prayers for the victory of mujahedeen, and goodness for Iraq, the Islamic nation and humanity
