

Sayyid Al-Hakeem: State Running Coalition is a national ruling coalition, internal and external political developments contribute to the current stability

In the Baghdad Bureau for Sheiks and Dignitaries of the Iraqi Clans on Saturday, 20/5/2023, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, listened to their valuable interventions and reiterated his vision of the Iraqi clan as an Iraqi resort and the destination that mitigates many social problems away from the judicial institution.

His Eminence stated that Iraq is undergoing a concrete and perceivable development in security, politics, and society, stating that the State Running Coalition is a coalition ruling with a national title and represents everyone.

H.E. indicated the regional and international developments that contributed to the stability of Iraq, affirming that Iraq now attracts the admiration and support of the world and even investment in its promising opportunities. H.E. stated that Iraq's stability is in the interest of everyone, as integrating internally and externally played a massive role in the current stability.

H.E. stated that total reform of Iraq's reality lies within abandoning the rentier state and diversifying sources of income, calling to activate agriculture, industry, tourism, investment, and technology, as well as the use of modern irrigation methods in agriculture to combat water scarcity, and liberating factories through relying on the private sector.

H.E. lauded adopting the social security and workers pension act, stating that this act will develop the private sector and release pressure from state institutions, as well as provide social security for the Iraqi family.

Sayyid Al-Hakeem stated that Dhi Qar is the government's priority, and Dhi Qar's fund is playing a huge role in supporting projects, affirming that Dhi Qar was a prisoner of political agendas that abused the popular momentum to strike the political system.

H.E. called to differentiate between drug abusers and dealers and called to establish rehabilitation centers to help abusers and sentence dealers to the full extent of the law. Moreover, H.E. emphasized the importance of learning from the neighboring countries' experiences in confronting this challenge that is now worse than terrorism.
