

ayyid Al-Hakeem stresses to preserve the representation of the largest component in the majority government, whether it is narrow or wide

Within the framework of communication with the sheiks and dignitaries of the Basra clans, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, met Sheik Ali Hadi Al-Fedhil and several sheiks and dignitaries in Al-Sharsh district and its suburban areas on 9/3/2022, renewing the congratulations on the birth of the Hashemite moons, and touched on the political issue.

His Eminence said that the largest component must maintain its political representation as a majority, whether in a broad or narrow majority government, indicating that Al-Hikma played a role in converging the views of the representatives of the larger component closer to understanding, deliberating, and sustaining dialogue.

His Eminence stressed that the representation of the largest component will achieve justice in representing the provinces and obtaining their rights, noting that the financial abundance needs specific and clear exchange controls according to criteria that get the funds towards the citizen and prevent it from going to the pockets of the corrupt. H.E. said that high prices in a consumer country produce great pressure on citizens.

His Eminence renewed his call to support farmers, pay their dues, provide modern mechanization, seeds, fertilizers, pesticides, etc. in addition to compensating the oil-producing provinces from their right to petrodollars, stressing the demand for the provinces' rights and investing our influence in that.
