

**Sayyid Al-Hakeem: Imam Al-Hussein's project "PBUH" is a missionary project.  
The Hussein platform must defend this project**

In his meeting with a group of missionaries on Wednesday, 27/7/2022, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, stated that the Hussein project is a missionary project, and it is important that the Hussein platform expresses and defends this project, stressing that Hussein is a lesson and an example at the same time. The lesson from the Hussein platform, just as the platform contributes to the rush of passion for the misfortune of the Master of martyrs.

His Eminence emphasized the avoidance of superstitions, as they represent an insult to the people of the House and their project. The Hussein case is one of the prestigious narrations capable of expressing the project. H.E. called to depend on the moral and reform methods when discussing the Hussein case, and he emphasized the unity of the subject without distracting the listener. H.E. said that speaking about Al-Hussein "PBUH" must be characterized by a specific topic and there is no room for personal interpretations regarding the Islamic concepts mentioned, calling for the necessity of relying on the vision of the jurist who knows the affairs of religion, and reviving optimism in people's hearts and facing the huge machine that is trying to undermine everything.
