

Sayyid Al-Hakeem: Iraq possesses service delivery field success ingredients

Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, met with several sheiks and dignitaries of the Attab tribe, led by the dear brother Sheik Hatem Riyad Al Hatim on 20/10/2022, and reiterated condolences to them and by them to the sons of this noble tribe on the departure of Sheik Riyad Al Hatim "may Allah have mercy on him", wishing his son Sheikh Hatem Riyad success in the mission of the chieftom of the tribe, recalling the common history with the Attab tribe in the face of dictatorship and terrorism.

His Eminence illustrated the nature of the political scene in Iraq and its developments and the paths of forming a government, and said, "One of the most important pillars of restoring the citizen's confidence in the political system is meeting the needs of citizens, achieving their aspirations and providing services to them, and forming a strong government with an efficient and harmonious team that represents an important entrance and a condition for achieving this." H.E. indicated that the chances of success exist for several considerations, the first of which is the availability of the required budgets due to the high oil prices and the availability of international and regional cover, which has become convinced of the necessity of Iraq's security and stability as a prelude to the security and stability of the region and the world, as well as security stability that would not have been achieved without the sacrifices of the Iraqi people and its security services and the blood of the martyrs.

H.E. also renewed his position in support of the government without participating in it, calling for procedural steps to combat corruption and dry up its sources.
