

Sayyid Al-Hakeem calls political blocs to unite and support Prime Minister-designate

Sayyid Al-Hakeem, head of Al-Hikma National Movement, called upon all political blocs to support and assist the Prime Minister-designate and his ministerial team in his mission and to stand with him in forming a government of national service, 24//10/2022.

H.E. called on everyone to unite and compromise in the interest of Iraq and the Iraqis, and to give priority to Iraq over all other interests. H.E. also hopes that the next government spares nothing to protect Iraq and serve its people, and spare no effort in the task of restoring citizens' confidence in the political process and planting optimism in the hearts of our people in the upcoming stage.

Taking advantage of the experiences of the previous stages to overcome the errors and work to develop real and realistic treatments, His Eminence added “our people today are satisfied only with a national service government that achieves its legitimate aspirations.”
