

Sayyid Al-Hakeem: Giant projects make Iraq within international interests' system

Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, met several Sheiks and dignitaries of Al-Bu Jawari in Zaafaraniya on Wednesday, 31/5/2023, recalling the milestones that brought him together with them from the history of Iraq.

His Eminence pointed out that the advantage of Iraq and Iraqis lies in their ability to get out of challenges and repressions stronger than they were, pointing out that the challenges faced by Iraq if it were another country that faced them it would not have stayed a country amongst the countries.

H.E. indicated the need to identify anti-corruption advocacy for self and personal interests, calling for reading regional variables and the tendency towards reducing crises and positive reading of the Iraqi reality, noting that everyone has reached the conviction that Iraq has only its own people and its interests prevail, stressing strengthening the internal situation to reduce external interference.

H.E. pointed out that the giant projects make Iraq within the system of international interests and peace, expressing his optimism about the Iraqi reality and the possibility of launching towards its aspiration.
